Contents:

Exempt Human Specimen

Specimens are intended for genetic testing of heritable diseases for diagnostic purposes. Delays in shipping can degrade sample integrity and affect patient care. Any assigned value is for customs purposes only. Human specimens for diagnostic testing are not subject to any *FDA* or *EPA/TSCA* regulation. Human specimens not suspected of containing pathogens are exempt from requiring a *CDC Import Permit*.

Relevant USITC HS Codes (select all that apply for package, if any)

Article Description	HS Code	Present in package
Whole human blood	3002.90.5210	
Cell Cultures	3002.59.00	
Other (Tissue, saliva, etc)	3002.90.5250	
Extracted DNA/RNA	2934

Shipper's Declaration

Date: _____

It is certified that the sample/s under reference number / air waybill _____ have been sent for diagnostic analysis. They do not contain infectious, contagious or radioactive substances. These samples have no commercial value, are not for resale and are safe for transportation.

I hereby declare that this shipment falls on below category exception under clause,

Please check the appropriate box below

3.6.2.2.3.1 Substances which do not contain infectious substances which are unlikely to cause disease in humans or animals are not subject to these Regulations unless they meet the criteria for inclusion in another class.	
3.6.2.2.3.2 Substances containing microorganisms which are non-pathogenic to humans or animals which are not subject to these Regulations unless they meet the criteria for inclusion in another class.	
3.6.2.2.3.3 Substances in a form that any present pathogens have been neutralized or inactivated such that they no longer pose a health risk are not subjected to these Regulations unless they meet the criteria for inclusion in another class.	
3.6.2.2.3.7 Blood or blood components which have been collected for the purposes of transfusion or for the preparation of blood products to be used for transfusion or transplantation and any tissue or organs intended for use in transplantation as well as samples draw in connection to such purposes are not subject to these Regulations.	
3.6.2.2.3.8 Patient specimens for which there is minimal likelihood that pathogens are present are not subject to these Regulations provided that correct packaging is used which will prevent any leakage.	

I declare that this shipment is not restricted under IATA Regulation.
